

Model: R5-20LG1-W

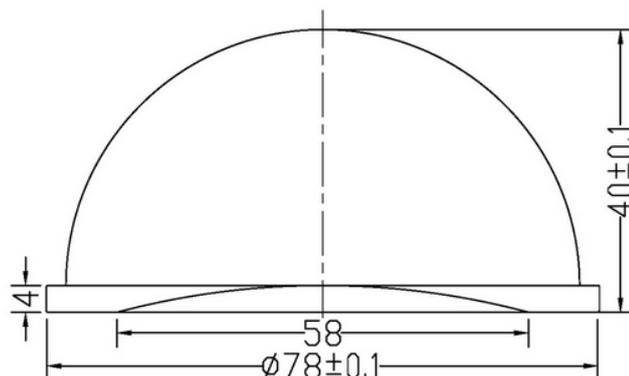

Application: Industrial lighting

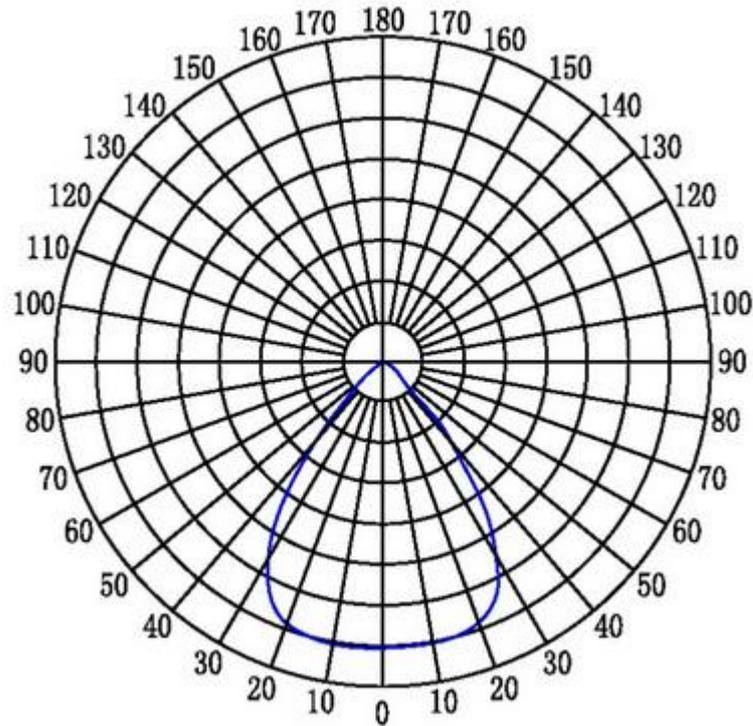

Material performance:

- ✓ Made of borosilicate glass
- ✓ refractive index : 1.474
- ✓ Light transmittance: 95%
- ✓ Never get yellow comparing with PMMA material

Lens Dimensions:

Luminous intensity distribution:

Additional information:

- ✓ Lens is completed with silicon gasket and stainless steel holder
- ✓ This lens is mainly used for high power COB LEDs, such as: CREE, LG Innotek.
