Figure 1 is a technical drawing showing the detail of the contact side of a specimen. It is a cross-sectional view. The specimen has a total height of 8.0 units. A hatched rectangular area represents the contact zone, which is 4.0 units high and 15.5 units wide. The total width of the specimen at the base is also 15.5 units. A dimension line indicates a width of 15.5 units for the entire base. Another dimension line indicates a width of 15.5 units for the contact area. A label 'w=0.3' is placed near the contact area. The text 'Contact Side' and 'SCALE 2/1' are written at the bottom right of the diagram.
